SEATING:	Five
HOSE:	
MISCELLANEOUS:	Misc. Rescue/EMS Equipment
IN-SERVICE DATE:	May 2020

HISTORY

With the addition of Station 2, the department determined that a secondary unit with multiple functions was needed. 742 will serve primarily as a Grass Fire Unit, but will also be used to respond to EMS calls and support pulling of Technical Rescue Trailer 771.

The unit will have box mounted by Clark Equipment and members will complete lighting, decals and radio equipment. We are looking at unit to be in service May 2020
